

What queries are supported in GET /activities?

Last Modified on 01/15/2019 12:55 pm EST

Pardot only supports searching activities by certain criteria - users can query by created_after or created_before (e.g. today, yesterday, last_7_days, this_month, last_month,), id_greater_than, id_less_than, prospect_only, or type.

For more information see <http://developer.pardot.com/kb/api-version-3/visitor-activities/#supported-search-criteria>.
