

Formula Data Context Example

Last Modified on 07/09/2019 2:51 pm EDT

Below is an example of the actual data you have access to in a formula, and the structure of that data.

```
{
  "trigger": {
  },
  "steps": {
    "stepname": {
    }
  },
  "config": {
    "configPropertyName": "value",
    "instanceId": 1256246
  },
  "info": {
    "formulaExecutionId": 55383381,
    "formulaId": 19959,
    "formulaInstanceId": 222911,
    "formulaInstanceName": "instance name",
    "formulaName": "my formula name",
    "formulaStartTime": 1529340551593
  }
}
```
