

# Base CRM API Provider Setup

Last Modified on 11/05/2018 1:01 pm EST

## Endpoint Setup

Log in to your Base CRM profile at <https://app.futuresimple.com/sales>. 1. Click your profile pic in the top right

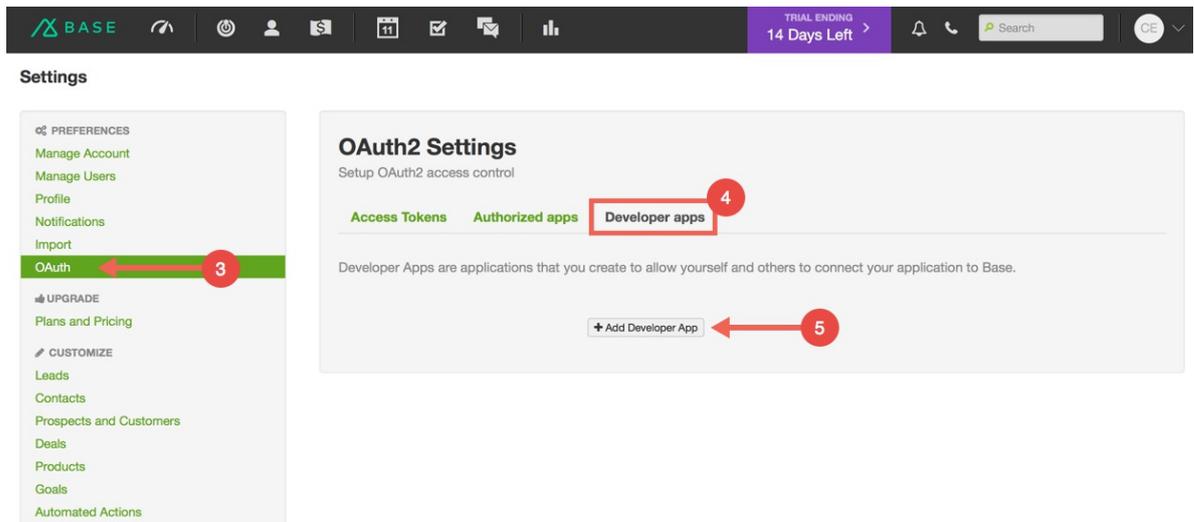

### 1. Select "Settings"

### 2. Select OAuth

### 3. Under "Developer Apps"

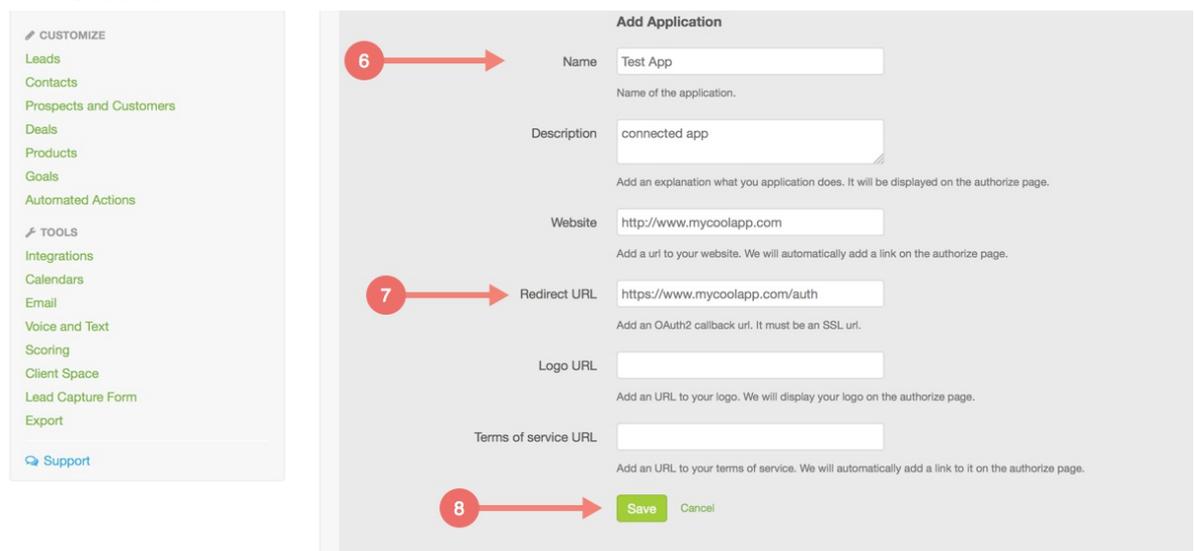

### 4. Select "Add Developer App"

5. Name the app

6. Input “Redirect URL”

7. Select “Save”

8. Under OAuth > Developer Apps: Select “Details” under the newly created app.

9. Copy the “Client ID” and “Client Secret” as they will be needed to provision a Base CRM connector
