ConnectWise CRM REST API Provider Setup

Last Modified on 12/30/2019 2:12 pm EST

To authenticate a ConnectWise CRM REST connector instance, you must have an account and either generate or know your **Public Key** and **Private Key**.

• Note: ConnectWise provides the most up-to-date and detailed setup instructions at https://developer.connectwise.com/Manage/Developer_Guide

To set up the endpoint:

- 1. Log in to your ConnectWise account.
- 2. Go to My Account.
