

Constant Contact API Provider Setup

Last Modified on 02/24/2021 8:07 am EST

To authenticate a Constant Contact a connector instance, you must register an app with Constant Contact and know the API Key, API Secret, and Callback URL of the app.

 **Tip:** Find the most up-to-date information in Constant Contact's documentation for registering an app.

To register an app:

1. Log in to the Constant Contact [Constant Contact Mashery page](#).
 2. Follow the steps provided to register your app.
 3. Record the **Key** and **Secret**. When you [authenticate a connector instance](#), use **Key** as the `apiKey` and **Secret** as the `apiSecret` .
 4. Click the **my account** link below the API information or click the **Apps & API Keys** tab.
 5. Click **Applications** under My API Keys, find your app, and then click **Edit**.
 6. In **Redirect URI for OAuth calls**, enter the Callback URL where the user returns after authentication. Enter this URL whenever prompted to enter a **Callback URL** when you authenticate an a connector instance.
 7. Click **Save**.
