

Volusion API Provider Setup

Last Modified on 01/02/2020 12:40 pm EST

Follow these steps to create a New Volusion Application for API integration.

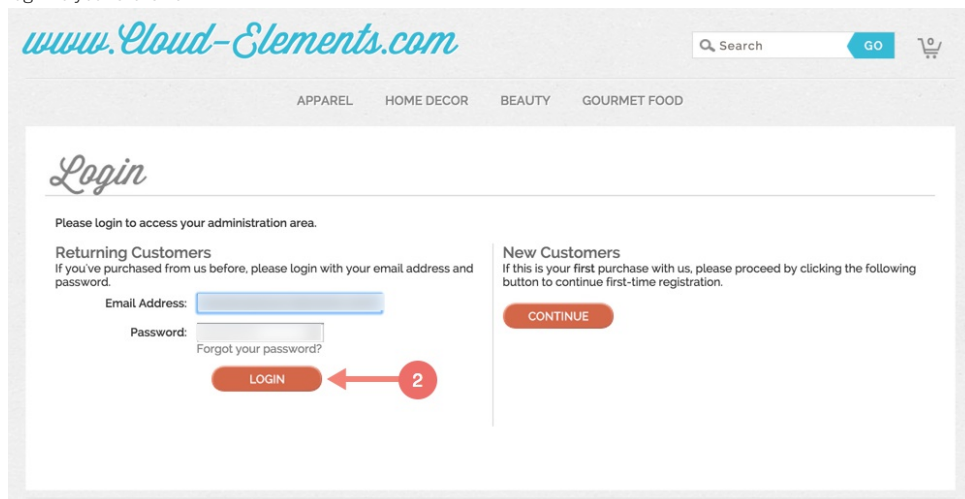

1. Via a web browser, go to: <http://www.volusion.com/> and set up a store. Once set up, please login.
2. From the Dashboard, click "Manage Store"

The screenshot shows the Volusion dashboard for a store named "www.Cloud-Elements.com". The store owner is "Atul Barve". A red circle with the number "1" and an arrow points to the "Manage Store" button in the top right corner. The dashboard includes sections for "my Account", "Recent Tickets", "Account Information", "my Support", and "my Tickets". The "Account Information" section shows the following details:

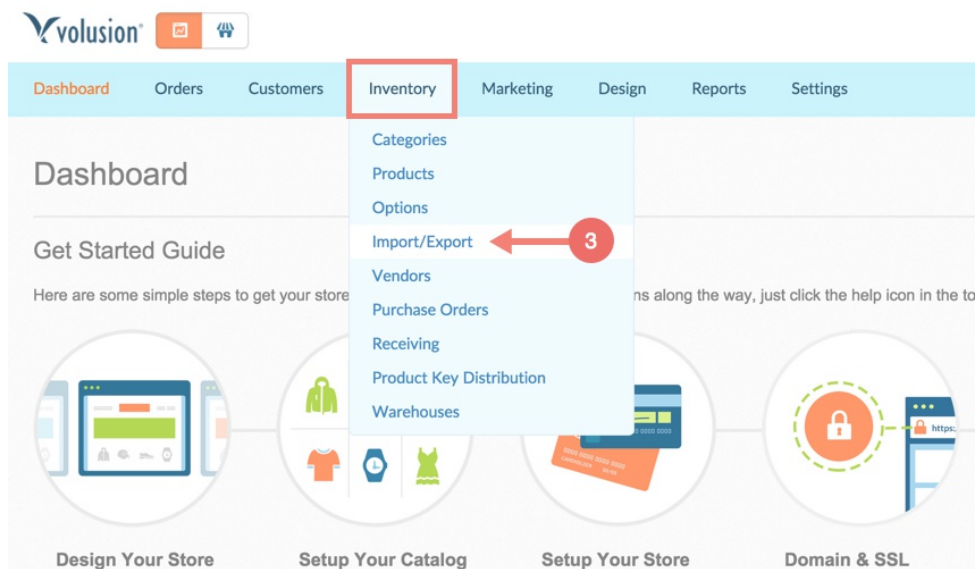

Plan	Users	FTP Accounts
Pro	1	0

3. Login to your storefront.

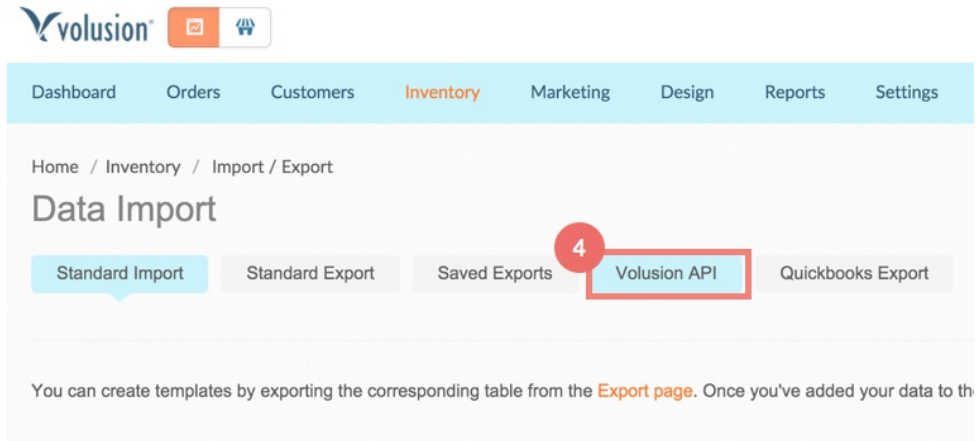

The screenshot shows the storefront login page for "www.Cloud-Elements.com". It features a search bar, navigation tabs for "APPAREL", "HOME DECOR", "BEAUTY", and "GOURMET FOOD", and a "Login" section. The "Login" section has two options: "Returning Customers" and "New Customers". The "Returning Customers" section has input fields for "Email Address" and "Password", a "Forgot your password?" link, and a "LOGIN" button. A red circle with the number "2" and an arrow points to the "LOGIN" button.

4. From the dashboard, click "Inventory" and then click "Import/Export".

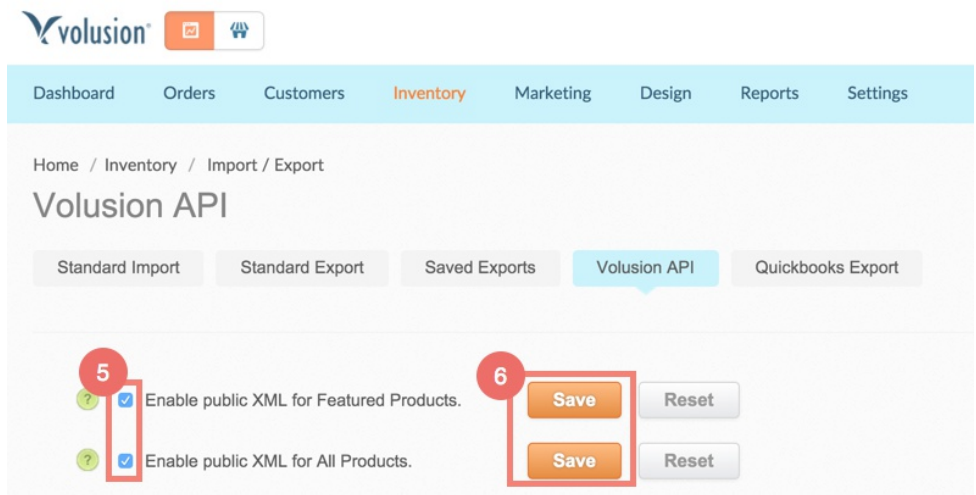

The screenshot shows the Volusion dashboard with the "Inventory" menu item highlighted in the top navigation bar. A dropdown menu is open, showing options: "Categories", "Products", "Options", "Import/Export", "Vendors", "Purchase Orders", "Receiving", "Product Key Distribution", and "Warehouses". A red circle with the number "3" and an arrow points to the "Import/Export" option. The dashboard also features a "Get Started Guide" section with four steps: "Design Your Store", "Setup Your Catalog", "Setup Your Store", and "Domain & SSL".

5. Click "Volusion API"

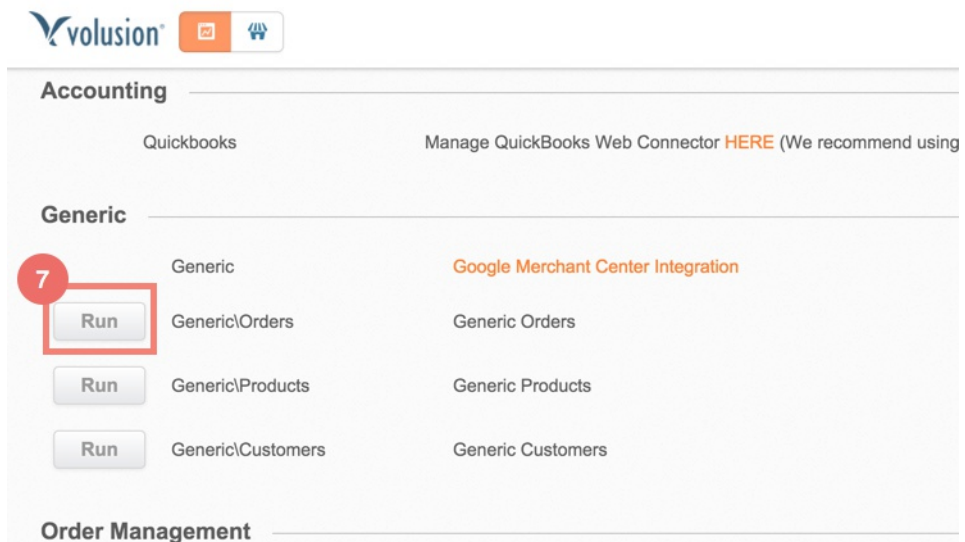

6. Make sure you enable public XML for both "Featured Products" and "All Products"

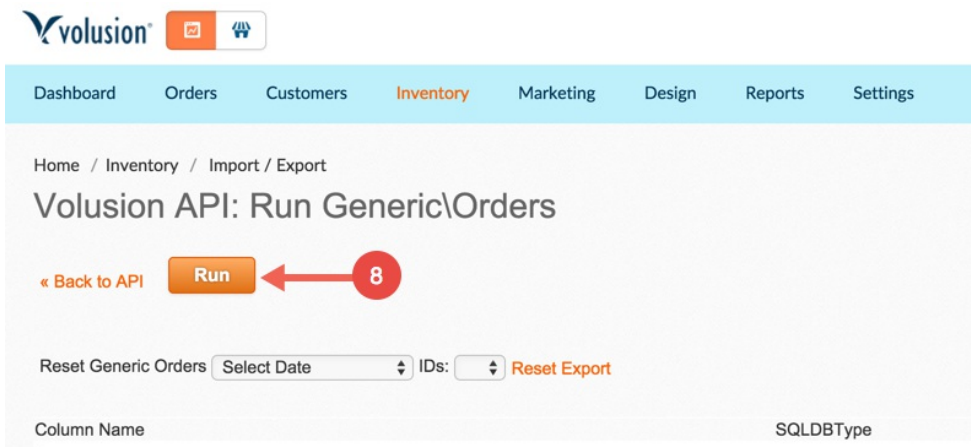

7. Click "Save"

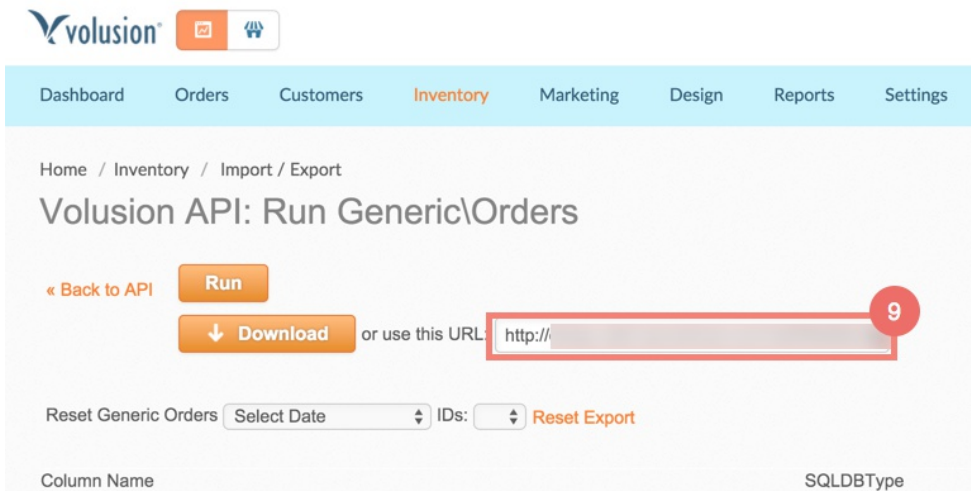

8. Next, scroll down to the Generic orders section, under Accounts and click "Run"

9. Click "Run"

10. Copy the URL returned from the "Run" command. It will be needed to provision the Volusion connector.

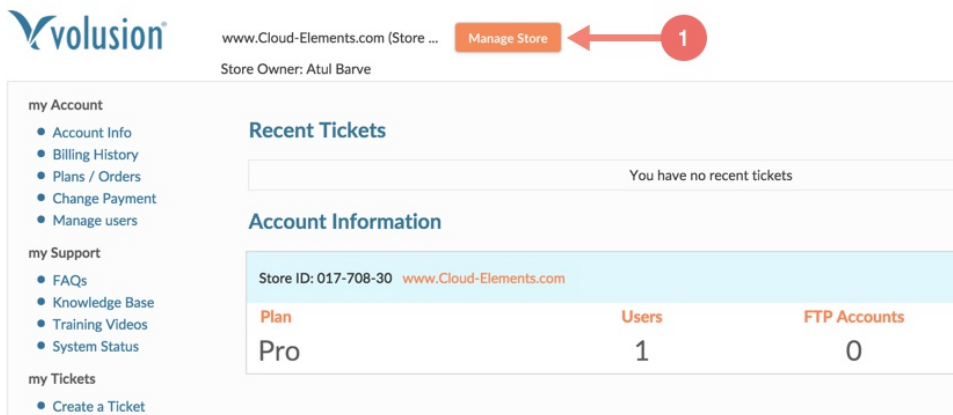

An example of the URL copied in the previous step can be seen below:

`http://otnqw.rakrt.servertrust.com/net/WebService.aspx?Login=volusion@acmedata.com&EncryptedPassword=64F3C0572DB54CB36951010E7200391418E79AC678214B366FBD4E&EDI_N`

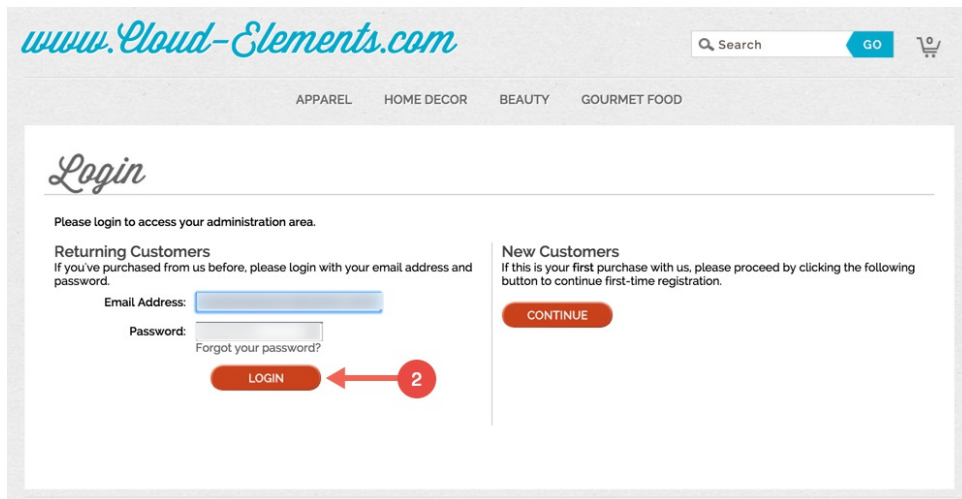

The beginning portion of the URL is your store URL - `http://otnqw.rakrt.servertrust.com` . Then the login email - `volusion@acmedata.com`, and finally the EncryptedPassword - `64F3C0572DB54CB36951010E7200418E79AC678214B366FBD4E&EDI`

Need Help finding your Encrypted Password?

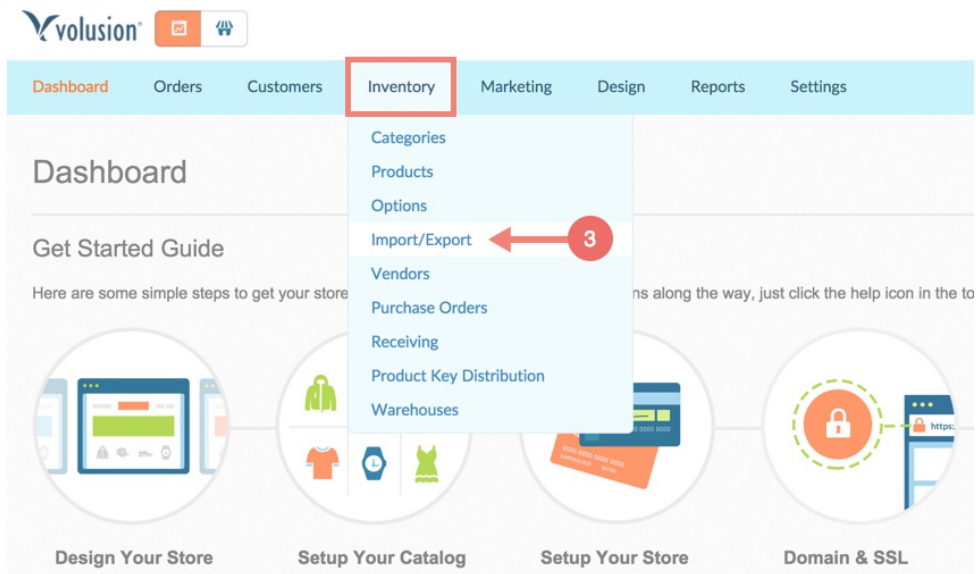

1. From the Dashboard, click "Manage Store"

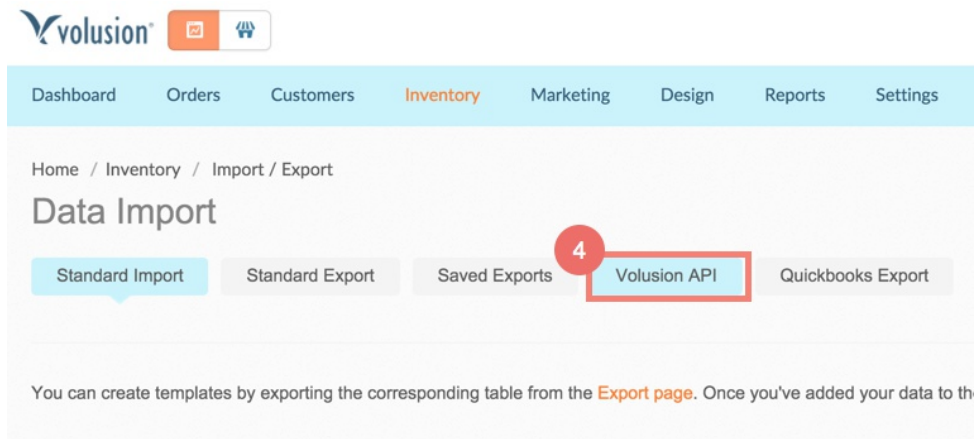

2. Login to your storefront.

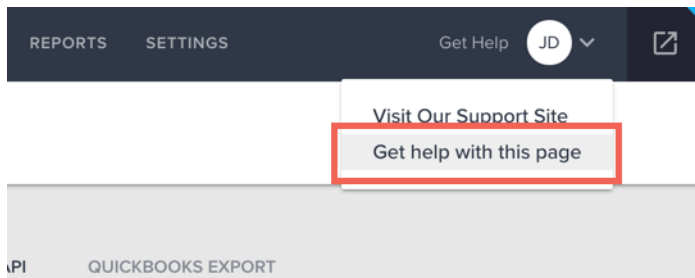

3. From the dashboard, click "Inventory" and then click "Import/Export".

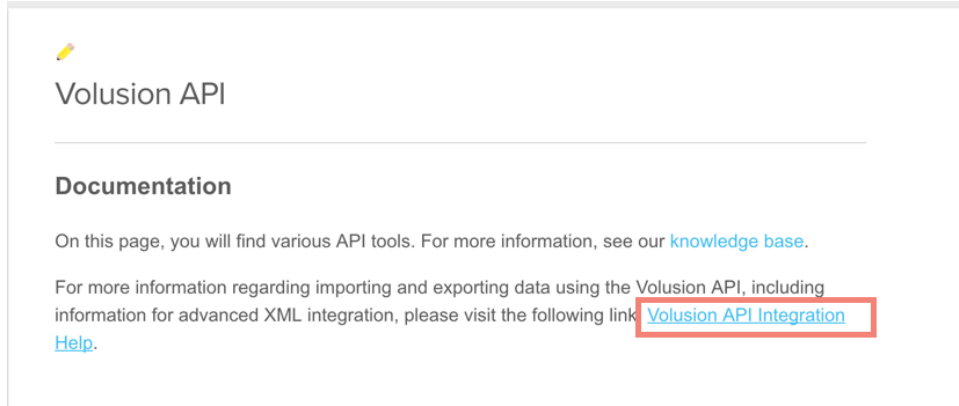

4. Click "Volusion API"

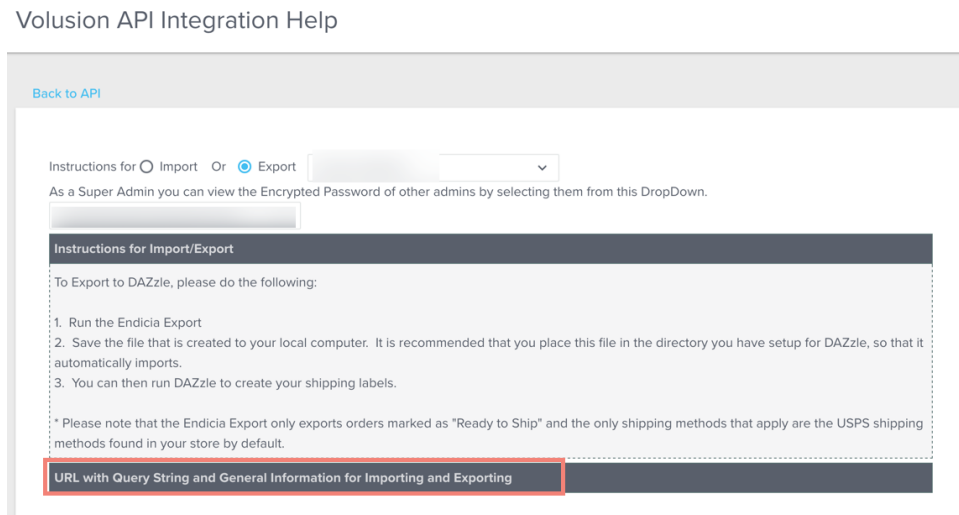

5. Click "Get Help" then "Get help with this page" in the top right corner.

6. In the pop up window, click "Volusion API Integration Help".

7. In the new window, click on the lower box labeled "URL with Query String and General Information for Importing and Exporting".

8. In this box, you will find your encrypted password.
