

Workday API Provider Setup

Last Modified on 01/02/2020 12:43 pm EST

You must have these prerequisites in order to provision and use a Workday connector:

- Access to a Workday sandbox. Workday no longer offers free trials, and SAP Cloud Platform Open Connectors is not able to provide one.
 - Valid permissions to access the APIs. Although you will be able to create a Workday connector, it will not function properly without the appropriate permissions.
 - Your Workday account's Hostname and Tenant name
-
