Staging Release Notes - Version v2.208.849

Last Modified on 07/31/2019 2:34 pm EDT

Release notes -- v2.208.849 (since v2.208.841)

Highlights

Correcting "Occurred" spelling across SOBA

EL-2208 | Sage 200:Bulk job is aborting for payments and paymentsReceipts endpoints

- Fixing bulk query on object where GET is not supported

EL-3483 | Servicenow: GET objects/{ObjectName}/metadata is returning 500 for requests Endpoints

- Fixing GET objects/requests/metadata for ServiceNow.

EL-1839 - Hide old Java connector Zoho CRM from UI

- Hiding Zoho CRM from UI

EL-3606 Zoho CRM V2 Corrected the error message when an instance has failed to refresh

- For Zoho CRM V2 - 400-Invalid Code Error Is Being Displayed Instead Of 401-Failed to refresh access token. So, corrected it accordingly

EL-3743 - Enhanced /object to give vendor object as well

- Enhanced GET /objects call to return user configured resource as well in Dynamics 365

Finance and Operations connector

EL-3763: Handle errors in Pardot

- Enhanced Pardot connector to indicate generic errors.

EL-3659:Dynamics F&O Connector Allow custom redirect url

- When making a post instance call, customer can provide their own redirect url by specifying in configuration part of the payload 'oauth.callback.url'
