# Orderful API Provider Setup
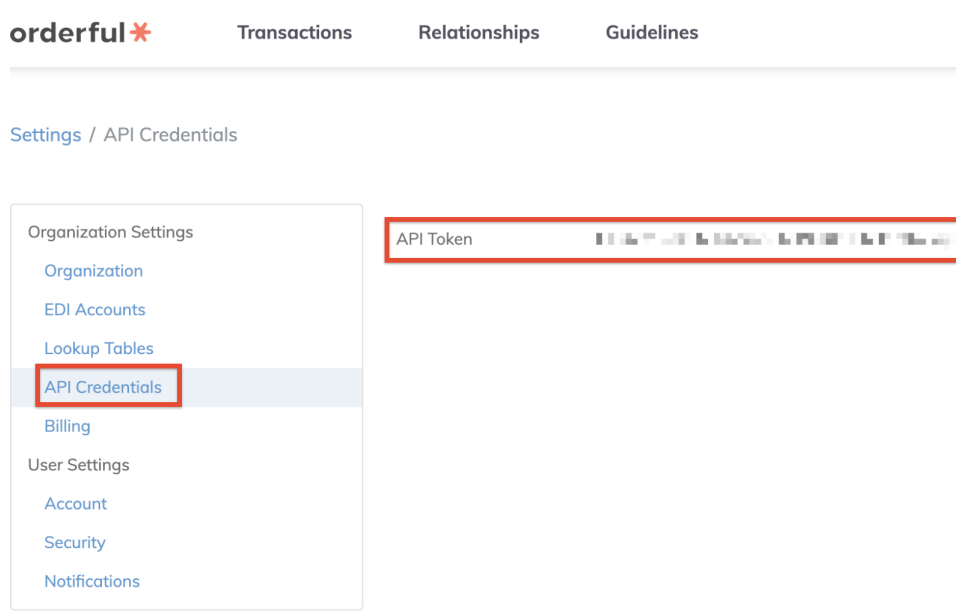

To authenticate an Orderful connector instance, you must sign in to your Orderful account and locate your credentials. To do so, complete these steps:

1. Sign in to your developer account at https://ui.orderful.com/signup.
2. Navigate to '**Settings'**.

3. **On the left-hand navigation panel, click API Credentials**.

Record the API token value, as you will use it to authenticate with the Orderful connector.
