Staging Release Notes - Version v2.208.988

Last Modified on 04/08/2020 12:11 am EDT

Release notes -- v2.208.988 (since v2.208.978)

Highlights

EL-4421: Oracle JDBC connector

- New element in Database hub, Oracle JDBC
- Supports CRUDS for all the tables in DB

EL-3177: Unhide Netsuite Suitescripts connector from production

feat: add cancel for v3 formula executions (SLYT-1212)

- Users are now able to request cancellation of a formula execution running on the v3 engine
- The API to cancel a formula execution now returns the execution record

SLYT-1479: fix(formula): set debugLoggingEnabled to true upon creation for v1

EL-4008: NetsuiteRestlets : Issue with GET /vendors
