Release notes -- v.EL2134 (since v2.208.229)

Highlights

EL-1692 Salesforce - Add includeDeleted functionality to the /query a…

- Currently, the /query and /raw-query endpoints hit the SFDC /query endpoint(https://developer.salesforce.com/docs/atlas.en-us.api$rest.meta/api$rest/resources$query.htm) that automatically filters out all the records that have been deleted. In order to also retrieve the soft-deleted records, it should point to the SFDC /queryAll endpoint(https://developer.salesforce.com/docs/atlas.en-us.api$rest.meta/api$rest/resources$queryall.htm) where the includeDeleted parameter can be used.
